In this Presentation

- Location Map
- Existing Conditions
- Goals and Objectives
- Proposed Improvements
- Project Development

Existing Conditions

- Main Street: two lanes with variable width parking lanes on both sides
- Springfield Avenue: two lanes with varying 0-5ft shoulders
- Lack of safe and accessible sidewalks

Goals and Objectives

- Increase pedestrian safety and accessibility
- Reinvigorate the town
- Preserve roadway infrastructure
- Update roadway drainage

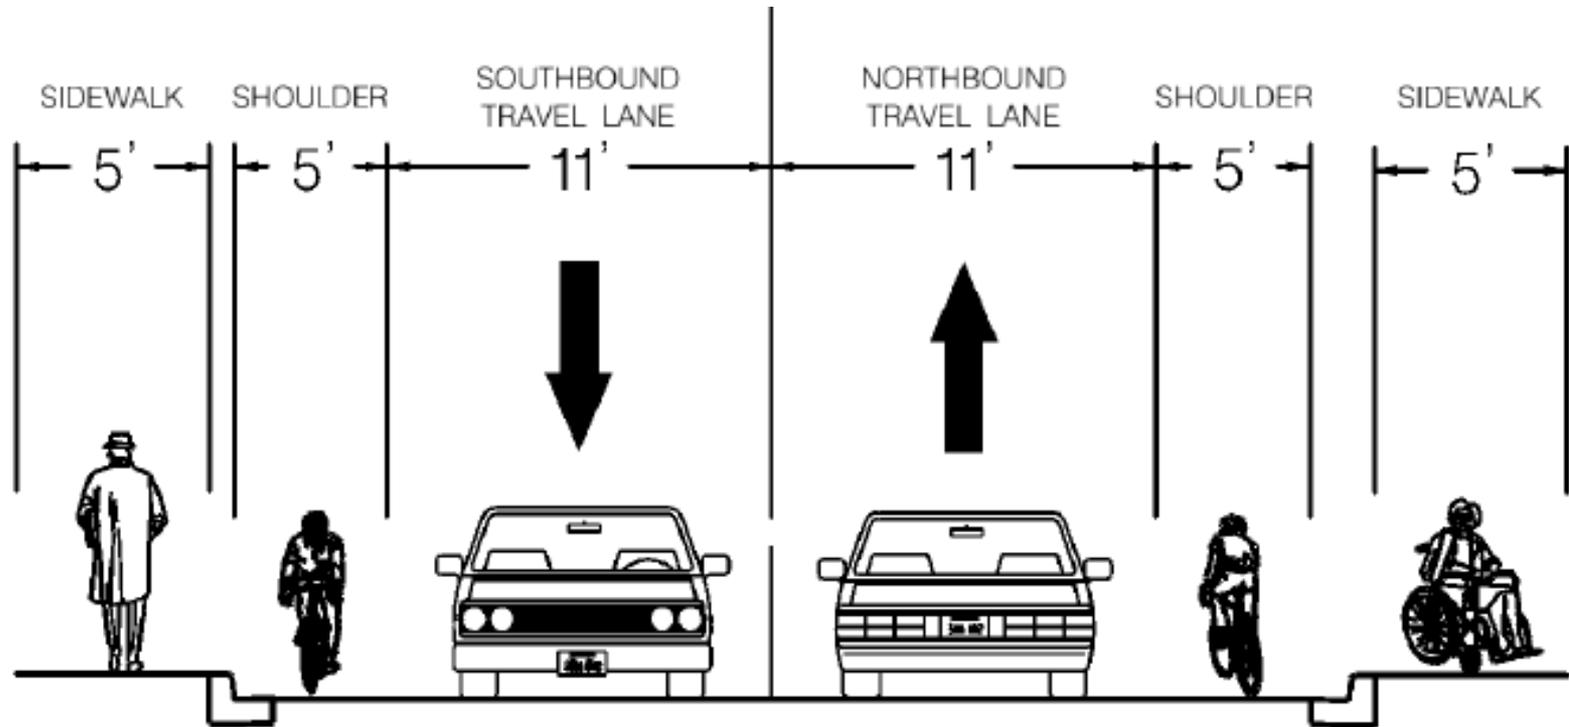

Proposed Improvements South of Patapsco Bridge

- Construct curb
- Safe and accessible sidewalks
- Realigning West Friendship Road
- Replacing the bridge over the Patapsco River

Typical Section

Proposed Realignment

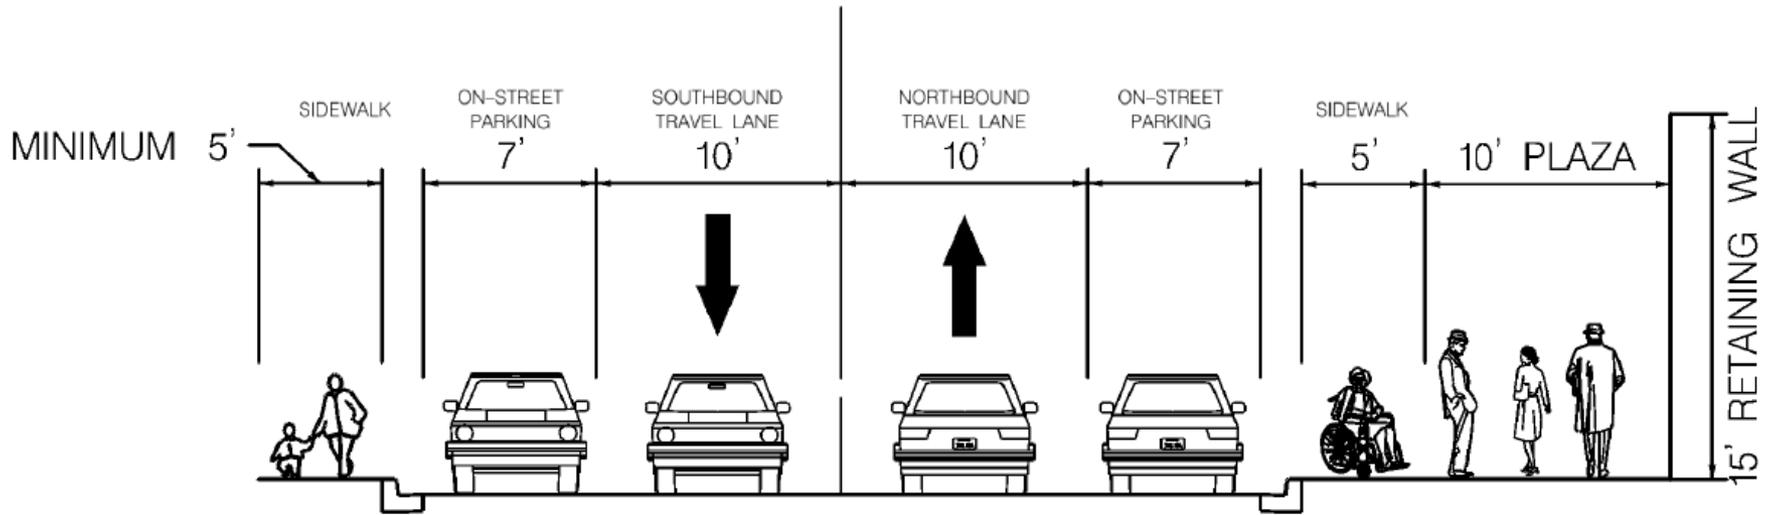

Proposed Improvements Main Street

- Safe and accessible sidewalks
- On-street parking
- Curb bump-outs
- Addition of plaza/(10ft x 100ft)
- Mid-block pedestrian crossings

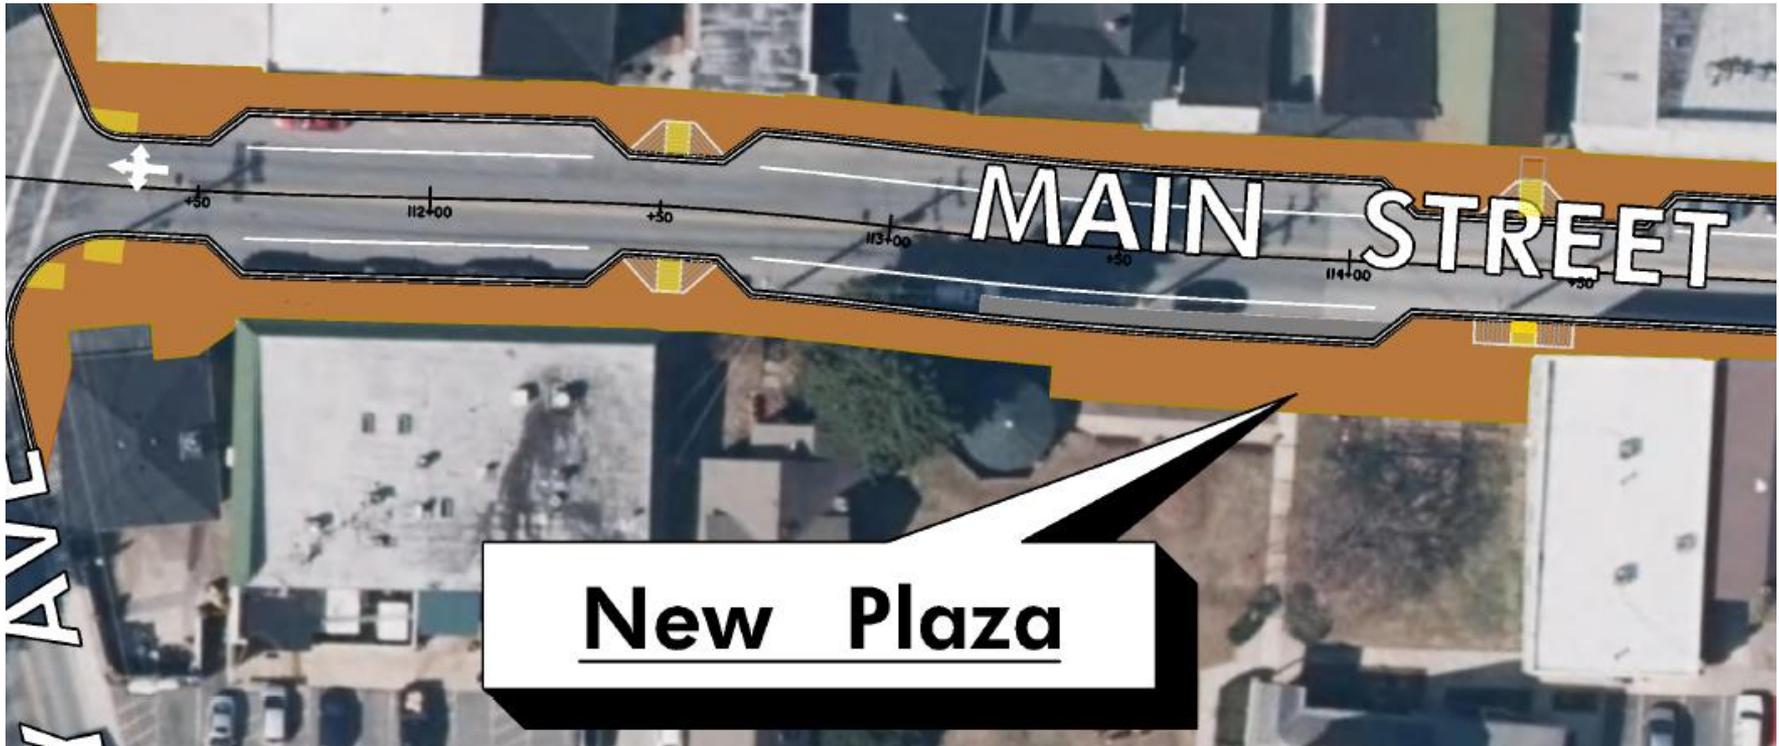

Typical Section

FROM SANDOSKY ROAD TO CHURCH STREET

Proposed Parking & Plaza

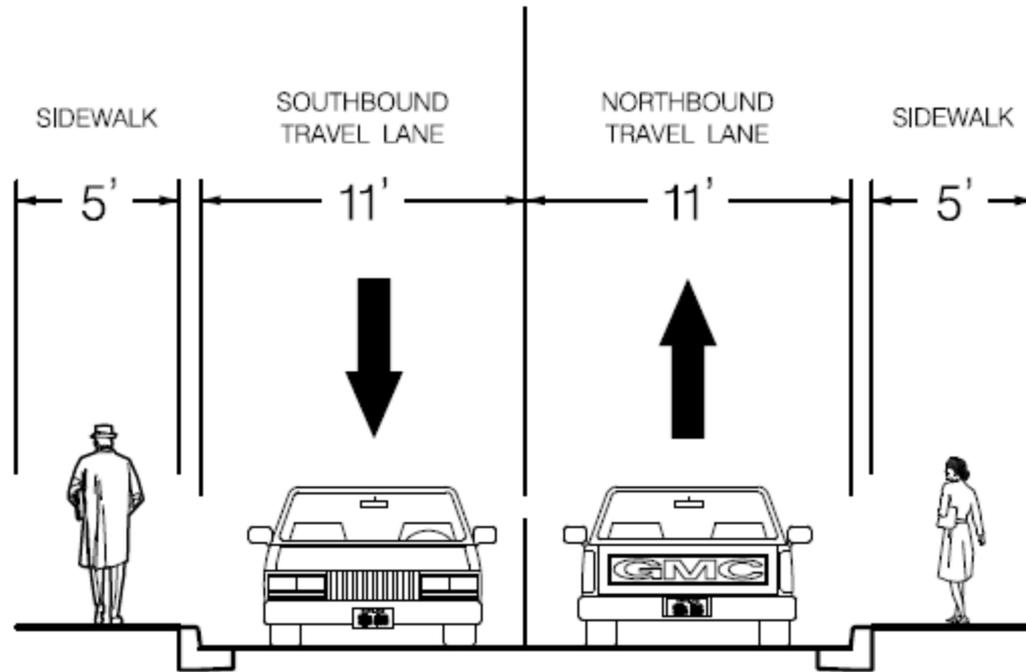

Proposed Improvements Springfield Avenue

- Safe and accessible sidewalks
- On-street parking
- Curb bump-outs
- Potential reconfiguration of Cooper Drive and Warfield Road

Typical Section

SPRINGFIELD AVE

Concept A

Concept B

Project Development

Sykesville Urban Reconstruction
